DISCLOSURES

General Information

DriveWealth, LLC provides this account statement as a summary of your account, which will be available every month in which your account has activity, and at minimum, quarterly, with no activity.

Activity shows your detailed transaction information during the statement period, including the trade date, settlement date, security purchased or sold, quantities and prices, and any rebates from fully paid for securities lending. All Activity is listed in date order.

Alternative Asset means a non-standard asset, which is typically illiquid and does not trade on a national securities exchange. Alternative Assets include certain publicly or non-publicly traded alternative investment assets and do not include securities or equity securities of a Direct Participation Program (DPP) or Real Estate Investment Trust (REIT), on deposit in a registered securities depository and settled in the regular way, listed on a national securities exchange or the NASDAQ, or any equity securities of a DPP registered as a Commodity Pool with the Commodities Futures Trading Commission. The values shown for these investments are estimated and may be obtained through various sources including unconfirmed figures provided by third-parties, without independent verification by DriveWealth. Alternative Assets are not covered under SIPC. Please refer to your Alternative Investment Agreement for further detail. DriveWealth does not assume liability for the accuracy, completeness, or reliability of security prices provided by third-party vendor systems. All pricing information is supplied for informational purposes only and should not be construed as a guarantee of execution price or market value. Investors are encouraged to conduct independent verification of security valuations before making investment decisions.

Asset Allocation Summary refers to the current allocation of the assets in your accounts among different types of asset classes, including domestic (US) equities, options, fixed income, mutual funds, short-term investments (cash equivalents, CDs, money market funds, etc.), and other assets. The portfolio allocations are separated and sorted into whichever asset class they best fit based on holdings data provided by a third-party vendor. The Other Assets category includes nonasset class holdings (i.e., identified holdings that cannot be categorized as stocks or short-term investments). Any instrument which qualifies as an alternative asset will be categorized as Other Assets. The purpose of this breakdown is to help you manage your investment risk by asset class. You should regularly review to make sure that the asset allocation reflects your risk tolerance and investment goals. Note that pending trades may materially impact the asset allocation information presented by inflating either a particular asset class or the available short-term investments.

Currency shows your aggregated Balances Summary as maintained on DriveWealth's books reflected in US Dollars.

Free Credits means uninvested cash held in your account.

Holdings the holdings section of your statement includes only settled transactions and is organized by asset class type. The unrealized **Gain/Loss** is the hypothetical value of the gain or loss that would be realized if shares were sold at the indicated price. The **Total Cost** represents the aggregate dollar value across all activity in a particular security and is inclusive of all applicable fees, commissions, and adjustments. The Total Cost may not be available due to certain transaction types and in certain circumstances, including, but not limited to money market mutual funds (presumed to always be \$1) and certain events, such as securities transfers. The **Unit Cost** is the approximate value derived by dividing Total Cost by Quantity. Unit Cost and other amounts on this statement may be rounded. Total Cost and Unit Cost are provided for informational purposes only and may not be inclusive of all positions or reflect all adjustments you may be required to make under the tax laws. Please consult your tax advisor regarding any such adjustments. Please refer to your trade confirmation(s) and your year-end tax form(s) for the most accurate cost basis information.

Market Price means the market value of the security as obtained from a quotation service or other independent sources. Values displayed may be based on the closing price, the mean between the bid and ask, or other method. Certain Alternative Assets may not have an available Market Price as it may be difficult or impossible to ascertain. Any estimated value reflected on the account statement is for informational purposes only, may not be current, and may be significantly different than the actual market value or the liquidation value of such Alternative Asset.

Securities Lending Rebate is a cash payment for lending stock as cash collateral to investors who need to borrow stock. When a security is loaned out, a loan fee is charged to the borrower of the shares, along with any interest due related to the loan. Holders of the security that was loaned receive a portion of this fee as a rebate. Securities Lending Rebate amounts reflect rebates earned in the prior months account statement period. Credit for Securities Lending Rebate amounts for the current month will appear on the following months account statement.

Settlement Date Balance means the balance of your account on the date that the trade settles; for US equities this is typically one day after the Trade Date.

Sweep Activity / Bank Sweep Deposit Activity outlines all of your transactions specific to the management of free credits held in your account for the statement period. Balances swept from your account will appear as withdrawals and amounts swept to your account will appear as deposits. Interest will be paid once per month and appear on your statement as bank interest. Money Market Funds are held with Dreyfus. Bank Sweep Deposit Program balances are FDIC-insured up to the applicable limits. Bank Sweep Deposit Program balances are not covered by the Securities Investor Protection Corporation (SIPC) protection applicable to your account. DriveWealth may receive compensation from the Program Bank or money market funds based on your cash management program election.

The change in your account value is organized by cash flow activity followed by investment value changes. **This Period** represents the value from the last statement date through the current statement period, whereas **This Year** represents the accumulated value from January 1st of the current year through the current statement period. The **Net Change** in **Portfolio Value** represents any additions, subtractions, and change in the market value of your investments since the last statement period.

Mutual fund purchases may be subject to eligibility and other restrictions, as well as charges and expenses. Certain money market funds may impose liquidity fees and redemption gates depending on the circumstances.

Fractional Shares and Rounding. DriveWealth enables notional based/ fractional share trading in securities to eight decimal places (market orders only). Fractional share trades are executed on a principal basis. DriveWealth, on a best-efforts basis, provides the National Best Bid Offer (NBBO) on all

fractional buy trades. DriveWealth provides the NBBO for all fractional sell trades. Due to certain rounding considerations statement totals may not equal statement details. Orders may be executed and calculated at more than two-decimal-place precision but will be rounded to the nearest penny for settlement. This may result in rounding adjustments as more than two-decimal-place execution and calculation creates a potential for deviation from two-decimal-place settlement. Such rounding adjustments may be represented as a fee or a credit on the trade confirmation and added to or subtracted from the execution amount in the account statement.

Fully Paid Securities Lending Program. Customers participating in the Fully Paid Securities Lending Program should be aware that shares on loan are not covered by FDIC or SIPC. Collateral for these shares in the form of cash or securities is held at a third party bank and is not subject to FDIC or SIPC protections. Additional information for customers participating in the Fully Paid Securities Lending Program is contained in the Master Securities Lending Agreement.

Margin Accounts (Regulation T). Trading on margin poses additional risks and may not be suitable for all investors. Please refer to our margin agreement and margin risk disclosure document for additional information. If your account is a margin account, this statement will reflect your applicable margin positions.

Payment for Order Flow (PFOF) SEC Rules 606 and 607. DriveWealth and its affiliates may receive compensation in the form of PFOF or revenue sharing arrangements for directing order flow to selected market centers (broker-dealers, exchanges, and alternative trading systems) during normal business hours. Such compensation varies based on the agreement reached with each market venue but is generally in the form of a per share or per contract cash payment. DriveWealth posts SEC Rule 606 quarterly reports that include order routing disclosures at www.drivewealth.com. DriveWealth may also receive compensation related to the foreign currency exchange component of the transaction in converting your deposit or withdrawal to/from US dollars.

DriveWealth continuously seeks the best price in the market and assesses its execution quality provided by the market centers to which we route our order flow. Due to the nature of fragmented markets and high frequency counterparties, the best price in non-displayed markets may not always be obtainable. DriveWealth revises its execution venues on a predominantly real time basis but no less than quarterly as guided by FINRA Rule 5310 including factors such as the character of the market for the security (e.g. price, volatility, relative liquidity, and pressure on available communications), size and type of transaction, number of markets checked, accessibility of quotation, and the terms and conditions of the order which result in the transaction. All agency orders received by DriveWealth, unless specifically instructed otherwise, are handled on a not held basis. Price improvement is available depending on the market conditions.
